

**YOUR ENGINEERING-DRIVEN,
TECHNOLOGY-BASED
PRODUCTION MACHINING
PARTNER**

Experience

Customers can take advantage of our experienced toolmakers and machinists. They can quickly program equipment using our WorkNC software to produce parts using the most efficient method.

QRM

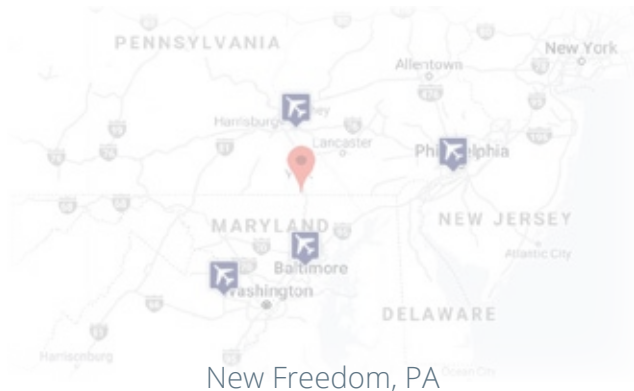

Quick Response Manufacturing is a corporate wide strategy to cut lead times in all phases of our manufacturing and office operations. It can bring your products to market quickly and help you compete in a rapidly changing manufacturing world.

Program Management

With our Program Management Office, customers can expect a personal partnership to ensure your project receives a timely response and is delivered on time.

Full Service Tool Shop

We offer 2 1/2 axis CNC milling, Die Sink EDM and Wire EDM plus a fully tooled production screw machining department all under one roof.

Assisting
Customers
from Design
to Part

The Crescent team offers:

- Suggestions regarding part design
- Direct point of contact to provide project up dates
- Focus on delivery and quick turnaround.

BENEFITS OF PARTNERING

We offer a flexible approach to projects and react quickly to customer demands. Achieved through our Program Management office that provides an open line of communication to ensure project requirements are met and by the implementation of the QRM strategy.

Our fully tooled, state-of-the-art machine shop provides a wide range of size capabilities and advantages for companies looking for low to medium quantity production volumes.

We have a fully staffed design department to produce solid models, fluid flow analysis, and part design expertise.

Our experienced team of Journeymen Tool-makers and Machinists offer value by quickly programming WorkNC software and producing parts in the most efficient method possible.

MATERIALS

- ~Aluminum
- ~Brass
- ~Copper
- ~Stainless Steel
- ~Exotic Materials
 - ~Steel
 - ~Titanium

CAPABILITIES

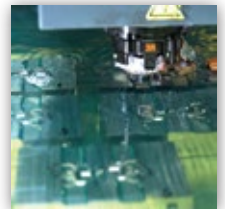

CNC Milling

Max Work Envelope Size:
35.4" x 19.7" x 19.7"
Tolerance Range: +/- .002
Minimum Order Quantity:
Starting at 500 pieces

Die-Sink EDM

Max Work Envelope Size:
39.4" x 31.5" x 16.5"
Tolerance Range: +/- .0002"
Minimum Order Quantity:
Starting at 100 pieces

Wire EDM

Max Work Envelope Size:
39.4" x 31.5" x 16.5"
Tolerance Range: +/- .0002"
Minimum Order Quantity:
Starting at 25 pieces

Swiss Screw Machining

Size Range:
Max .787" and length 3.5"
Tolerance Range: +/- .0005"
Minimum Order Quantity:
Starting at 5,000 pieces
